## INFO

### **Fondo Nazionale per l'Innovazione: 300 milioni di euro per l'accesso al credito**

E' operativa da dicembre 2012 la linea destinata alle piccole e medie imprese, a supporto della valorizzazione ed il finanziamento di progetti innovativi basati sullo sfruttamento industriale di brevetti prevista dal Fondo Nazionale per l'Innovazione, strumento del Ministero dello Sviluppo Economico.

Il Ministero attraverso il fondo Mediocredito Italiano del gruppo Intesa Sanpaolo, Unicredit e Deutsche Bank, mette a disposizione una garanzia che permetterà di favorire la concessione di finanziamenti da parte delle banche selezionate per circa 300 milioni di euro, favorendo l'accesso al credito delle imprese e riducendo i costi del finanziamento.

Importo massimo 3 milioni di euro durata fino a 10 anni e nessuna garanzia personale o reale sarà richiesta all'impresa.

### **Public consultation "Communication on energy technologies and innovation"**

The European Commission has foreseen a Communication on energy technologies and innovation for the first half of 2013. It intends to give a European energy technology policy perspective in the follow-up to the Energy Roadmap 2050. As part of the preparation of this Communication, the Commission have launched a consultation to consult relevant stakeholders on possible options for a European energy technologies policy and to receive feedback and additional ideas on this proposal.

The consultation will be open until 15 March 2013.

### **EU Ministerial Summit on Key Enabling Technologies & economic growth : Ministers call for mobilisation of EU funds**

On the 7th February in Grenoble, European Commission Vice-President Antonio Tajani participated in a Ministerial Summit to discuss a series of KETs-related actions for European competitiveness and economic growth. The debate addressed issues such as the support for close to market KETs projects at EU, national and regional level corresponding with industrial needs, the impact of state aid rules on the EU's competitiveness, the promotion of trade in a spirit of mutual benefit as well as other actions to support the European strategy to boost the industrial deployment of KETs-based products in Europe. The Ministers of Germany, France, the UK, Italy

and Spain have called for a strong support within Horizon 2020 to actions on Key Enabling Technologies or KETs, which include micro and nanoelectronics, advanced materials, biotechnology, photonics, nanotechnology and advanced manufacturing.
